

Lake Health's expanded sleep center can help you get a good night's sleep.

With the acquisition of the Sleep Well Center in Willoughby Hills, the Lake Health Sleep Center now has two convenient locations that offer comprehensive evaluation and treatment of sleep disorders.

Accredited by the American Association of Sleep Medicine, the Lake Health Sleep Center provides sleep testing for suspected sleep disorders, such as obstructive sleep apnea, insomnia, snoring, sleep walking, narcolepsy and restless legs syndrome.

Sleep testing is offered six evenings a week, Monday through Saturday. Both locations feature a four-bed, state-of-the-art sleep center that is staffed by a board-certified sleep physician.
